Our Father-Mother God have issued the Divine Fiat that 2007 is the year in which the cycles of destruction will come to an end! This year a new paradigm of Heaven on Earth will be birthed in the hearts and minds of awakening Humanity. These patterns of perfection will then be seeded into the Crystal Grid System of Earth through the 5th-Dimensional Solar Light Bodies of Lightworkers around the world. Your I AM Presence has magnetized this information into your sphere of awareness because you have been preparing for lifetimes to assist with this vitally important facet of Earth's Ascension process.

Your part of this Divine Plan is unique. There is not another soul who has been prepared in exactly the same way to accomplish what you have volunteered to do this year. You have all of the wisdom, skill, knowledge, strength, courage and ability you need to succeed in fulfilling your part of this glorious Divine Plan. The Legions of Light throughout Infinity are standing in readiness awaiting the opportunity to assist you at your beck and call.

Only your mighty I AM Presence can reveal to you the full magnitude of this auspicious moment in the Earth's evolution. As you seek the Kingdom of Heaven within, all will be revealed to you. Read these words, and feel them resonating in the deepest recesses of your heart. Allow the inner knowing of this Truth to awaken within you the remembrance of your purpose and reason for being.

The day of domination and control by Humanity's fear-based human egos has passed. Through miracles that have taken place over the past 20 years, a critical mass of the energy, vibration and consciousness for every evolving soul on Earth has reached the threshold of the 5th Dimension.

Our I AM Presence now has direct access to our physical, etheric, mental and emotional Earthly Bodies. Each person's I AM Presence is standing in readiness awaiting the opportunity when he or she can take full dominion of our thoughts, words, actions and feelings. Through the fulfilment of the next phase of the Divine Plan, that opportunity is destined to be presented to each person's I AM Presence this year.

This is a moment we have all been preparing for since we fell from Grace aeons ago. The Heavens are rejoicing, and the elation pouring forth from the Company of Heaven is boundless. Now we each have the responsibility of listening to the Divinity within our heart of hearts to see how we can best fulfil our individual part of this critical phase of the Divine Plan.

The long-awaited moment has arrived. The Age has dawned long foretold by the ancient prophets when Humanity will attain our Victory in the Light. We need only to lift up our consciousness and step through the open door into our Eternal Freedom. This is the Age of Enlightenment and Wisdom, the Age when our humanly created, self-inflicted separation from God will be permanently healed, and the Truth of our own Divinity will be revealed.

The awakening is now taking place within each one of us, and change is being experienced by every Lifestream. Transformation is occurring subtly and deeply at an atomic, cellular level. The power of God is penetrating into every electron of precious Life energy evolving on Earth. This process of transformation has been a dormant seed in our consciousness and is now being activated by the tremendous influx of God's Light. The seed of transformation is growing and expanding, filling our entire Beings with Light and lifting us up to touch the 5th-Dimensional Realms of Illumined Truth. This is enabling us to manifest the reality of our I AM Presence now in the world of form.

As the seed of awareness grows in our consciousness, it begins to blaze like the Sun radiating forth Rays of Light that connect with every other Lightbearer on the planet. This activity of Light is creating a powerful forcefield around

the Earth, a 5th-Dimensional Crystal Grid System of Light. ! The collective radiance of this grid of Light is the most powerful force on the planet. It is creating a Bridge of Light that spans the abyss from the lowest vibrations on Earth into the 5th-Dimensional Realm of Limitless Physical Perfection. This is the Bridge to Freedom over which this Earth and all her Life are Ascending onto the next Spiral of Evolution.

The balanced Light of our Father-Mother God has returned to Earth, and the Permanent Golden Age has begun. The Power of God, now pulsating through all Life, is working through each of us ceaselessly to activate within us the inner knowing and remembrance of the Oneness of All Life. Our strength lies in this greater knowing and in the unification of our hearts and minds with the billions of Lifestreams joining us on the return journey back to the Heart of God.

Much of the chaos Humanity is experiencing is because we perceive ourselves to be intelligence apart from God. Some of us have even gone so far as to believe that all we are is our physical bodies. We have come to this conclusion because we look at the outer world and judge what we see to be real. The Truth is that we are multidimensional Beings, and the physical plane is just one of the dimensions in which we abide. Our material senses—sight, touch, sound, smell and taste—are limited and view only the physical plane. Actually, the dense physical plane that we think is so real is the least real of all of the dimensions, and it is the very last dimension to reflect the changes that are taking place in the Realms of Cause.

Sometimes the physical plane is even called the “world of illusion” because it is so distorted. The denser the veil of illusion became as a result of our fall from Grace, the more distorted our perception was and the more we clung to the material plane to give us a sense of security.

Prior to our imagined separation from God, we were very aware of the Law of Attraction, and we knew that we were the co-creators of the physical dimension. We knew that our thoughts, words, actions and feelings were continually being projected onto physical matter, thus manifesting in physical form. We realized that the Law of Attraction is a Creative Force from the Universal Source of All Life that flows through us constantly.

Even though we lost the awareness of this Law, it in no way changed the reality of the Law's existence. Through the Law of Attraction, our Gift of Life flows through us and picks up the particular vibrations within our consciousness. Our consciousness is an accumulation of all of our beliefs, thoughts, words, actions and feelings.

As the Creative Force of the Law of Attraction passes through us and picks up the vibrations of our consciousness, the synthesis of all energy vibrating there is projected onto physical matter. Thus, everything manifesting in our lives now, whether we are referring to our financial situation, health, relationships, careers, happiness, success or peace of mind, is a result of our beliefs, thoughts, words, actions and feelings! .

As long as Humanity holds within our consciousness the illusion that we are separate from God, we will experience distorted conditions of matter. Only when we realize our Oneness with God will we Ascend out of the world of illusion and reflect the patterns of perfection within the Causal Body of God onto the physical plane, thus manifesting Heaven on Earth.

Since the fall, Humanity has given power to physical matter. We have given our physical bodies power to elevate us or bring us down. We have given the body power to incapacitate us through sickness, poverty, unhappiness, aging and on and on ad infinitum. We have allowed the distorted manifestation of physical matter to become our reality when, in Truth, it is an illusion created by our beliefs, thoughts, words, actions and feelings.

It is time for us to realize that our bodies and physical matter are not intelligent Life forms separate from God, but rather they are a mass of atomic energy controlled by our consciousness. NEVER DOES MATTER CONTROL CONSCIOUSNESS. Our bodies and our physical environments are merely reflections of our consciousness. That is why matter cannot be changed by sheer human will power any more than a reflection in a mirror can be changed if

we don't change the object causing the reflection.

Presently our world reflects our consciousness. We have erroneously set about trying to change outer-world situations instead of changing our consciousness, which is causing the outer-world situations. This is a futile effort and can only be corrected by raising our consciousness and remembering that we are One with God.

When we actually accept our I AM Presence AS ourselves and not some separate "self," our environment and our world will reflect an entirely new picture. Instead of disease, we will manifest health. In place of poverty, we will have abundance. Instead of war, we will live in peace.

For many, this process is beyond the reasoning of the outer mind, but the I AM Presence is beginning to reveal it as an inner knowing. As we release the illusion of our separation from God, again becoming One with our I AM Presence, our power will be withdrawn from matter. Matter will then be seen as a mass of atoms waiting to take on our consciousness and to reflect the Perfection of God. When we recognize the I AM Presence as the master of our bodies and environments, we experience freedom from limitation. The Light of God will then transmute all distorted beliefs and the separation that binds us to negativity.

It is time for us to begin transforming our consciousness by recognizing and ACCEPTING our true God Reality. We must now go within and re-establish a loving relationship with our I AM Presence, the part of ourselves that is created in God's Image. When we begin to recognize our God Reality, we glimpse our true potential. Then we realize that the Will of God is within each of us NOW. It is all knowing, all caring, all loving and all powerful!

In 2007, we are being given an unprecedented opportunity for our I AM Presence and our 5th-Dimensional Solar Light Bodies to integrate into our physical, etheric, mental and emotional bodies. This miraculous Transfiguration can now occur at an atomic and subatomic cellular level. Once this is accomplished, we will be portals through which the totality of our I AM Presence will function to bless all Life. As the Light of our I AM Presence floods the physical plane of Earth, the humanly created shadows of discord will be transmuted and Heaven on Earth will become a manifest reality.

This year, through the unified efforts of Heaven and Earth, change will tangibly manifest everywhere. The Beings of Light have indicated that 2007 is a critical point in time during which the incoming Power of God's Transfiguring Light is building to great intensity. This is signalling the Higher Realms to begin projecting forth the energy to stimulate the Spiritual Growth of Humanity. Embodied Lightworkers are being called to assist in this holy endeavour. BE STILL, AND KNOW.

As Humanity listens to the I AM Presence within, more and more Lifestreams are becoming aware that 2007 is a peak transmission period. People are sensing the opportunity at hand, and they are volunteering to cooperate with the Divine Plan by anchoring the incoming Light into the hearts and minds of Humanity and the physical substance of Earth.

The number of Lightworkers around the world who are consciously working to fulfil their unique facets of this unfolding Divine Plan is legion, and the groups of Lightworkers who are joining together this year to participate in various activities of Light on behalf of all Humanity are without measure. The Gratitude pouring forth from the Heart of our omniscient, omnipresent, omnipotent Father-Mother God in response to this selfless service to Life is awe inspiring.

The Company of Heaven asked those of us associated with the New Age Study of Humanity's Purpose, Inc. if! we would be willing to join energies with them to orchestrate a global activity of Light to assist Humanity with the unparalleled opportunity at hand. We consider this a sacred trust, and in deep gratitude and joy, we have dedicated our lives to the God Victorious fulfilment of this Heavenly request.
