

The Tau Community

We are a Spiritual Family of like minded individuals who seek empowerment through Spirituality, Education and Training plus providing excellence, equality and respect for all who join our family of soul seekers in search of UNITY, PEACE, HARMONY, BALANCE and TRUTH.

As a family of committed Light Workers we share the same ideals, philosophies, spiritual values in an all loving, all embracing Father Mother God/dess that unites all of us as one community in providing high quality training, nurturing and support for all its members

Our core values as a loving family of Light Workers is to share 'Love and Light' to all who seek our support by providing client led services that are all embracing, all loving and sensitive to the needs of our local communities and all who ask for our support.

Our members come from all walks of life and as a family we are totally united in our common purpose in providing services for Carers and clients that are non judgemental, and all embracing regardless of Colour, Ethnicity, Disability, Sexuality or Religious Persuasion.

As a committed interfaith spiritual family we have all made an undertaking to support our new commitment as brothers and sisters sharing a common vision by forming the Tau Community. Available for all Light Workers, Carers and like minded therapists to join our spiritual family, embracing the healing energies of the Angelic Realms; the Divine Feminine and Christ Consciousness underpinned by the Angel (Feng Shui) Bagua and the ancient teachings of the Nazarene Essenes.

Our VISION is to share with YOU and others only the purest love from a heart of love. As light workers of integrity, we aim to Empower YOU to embrace your inner essence as a child of Love and Light and together we can make a difference in our world which is searching for simplicity and truth!

The Family of Tau is an interfaith community open to all Therapists, Light Workers, Carers and like minded therapists who are searching for a spiritual pathway.

We have been guided by the Ascended Masters to reunite as a Spiritual family that is now fragmented by ego to practice Love and Light in our daily life. We have been instructed by Mother Mary to adopt the spirituality and core values of Saint Francis of Assisi who represented only Love, Peace, Integrity, Spiritual Freedom, Honesty, Harmony, Balance, Love for Mother Earth and the animal kingdom.

We are a Spiritual Family of like minded seekers in search of Spiritual Truth. We consist of ordinary men and women who live simple ordinary lives. Our daily lives are lived out in an extraordinary way by sharing a common vision for the total well-being of our local community, our country and the wider global village. Our hearts are permanently fixed on sharing Love and Light through engaging in normal everyday activities. Our core values as a committed spiritual family empowers each one of us to make time for feeding and nurturing not just our mind and body but also our Spirit through quiet moments of silence and daily prayer either alone, with our loved ones, or with each other. We perceive 'Prayer' as anything spiritual that raises our consciousness to celebrate life and the sharing and exchanging of our love for each other with another in the presence of the 'I AM PRESENCE.'

Our Members are invited to embrace issues that affect each one of us on a global scale by sending out Love and Light. We are perceived as 'Spiritual Eco Warriors' re-educating society to respect the planet, a free gift to us from Source on a loan basis. Our core values are to address any imbalance in equality, peace, love, unity, harmony, hatred for another brother or sister. As members of the same global community, we have shared responsibilities to be 'spiritual advocates and nurture Love and Light by sharing Love with all. When a brother or sister is in pain then we, as one spiritual family are also affected both indirectly and directly!

Being a member of the Tau Community is joining a family of 'soul mates' that eventually become Friends for life.

Joining our spiritual family is taking a step closer to being an enlightened 'Spiritual Eco Warrior' for Source, the Divine Feminine, empowering all Light Workers to meet the spiritual and holistic needs of a changing /faceless world that has lost sight of its Divinity –Purpose –Mission.

"Hold back nothing of yourself for yourself, so that he who gives Himself totally to you may receive you totally." St. Francis.

On their Graduation and Final Attunement Day, our Therapist's are presented with the Tau symbol to wear on their person to show the world that we are 'One Spiritual Family' in service with Mother Earth and all that serves the 'I AM PRESENCE,' promoting harmony, balance and divine connectedness within the family of Love and Light. We as an interfaith community of Light Workers and Carers can affect change only from within!

It has been prophesied that when everything is right with the New World and the energies and vibrations are high, people will tend to live in communities. Money will probably be a thing of the past and, as of old, the trades people, artists, therapists, etc. will share their gifts with others. Life will be peaceful as it was meant to be. People will not be lonely or greedy. The communities will be safe places to live and fellowship will be shared.

The Tau Community

The Community's base is in Storth, south of Cumbria, England, where it is the home for a small international, inter-faith community of like minded therapists who have committed their lives to being in service to Love and Light –the 'I AM PRESENCE, founded there in 2003 by ex nursing monk, Sean Bradley. Our members currently live out their calling in their own homes but reunite four times each year for support and training. The community have representatives in America, Madeira and Ireland. Our sole mission is to have a presence in every country where there is anarchy and where love is denied all.

This new family are committed to embracing spirituality 'Christ Consciousness, 'underpinned by the teachings of the Nazarene Essenes and St Francis for a period of time, or for their whole life to spiritual sharing and to a great simplicity of life. Today, the community is made up of several therapists and lay members, representing members of the interfaith community in our society and whose ethos is to lead not by lofty words but by example and simplicity.

At the heart of daily life in the Tau family are two periods of prayer, either individually or together, when we are able to unite as one family. It is our common vision that as co-creators of God, we have an important duty to care for our souls and for each other as we are all brothers and sisters of Christ. When a brother or sister is wounded or experiencing difficulties, we are all affected. Our way of life is greatly influenced by the teachings of Jesus and the Canticle of the Creatures by St Francis. We have a duty to share and inspire others to respect the landscape, our free gift from God, by re-educating society not to exploit or destroy God's love gift. We know that the elements, seasons and Nature Spirits who have safeguarded the universe and our landscape since the very beginning of time are now in revolt with man for abusing that free gift. The climatic changes that are affecting our world are as a direct result of man's greed, abuse of power and total alienation from God. Man has stepped out of the divine plan and has jeopardised our very survival as a result of his disobedience to God's laws.

Mother Earth invites each one of us who work with the Divine to embrace her motherly love and be guided by the Elementals, Tree Devas and Nature Spirits. We as light workers are now inspired to redress this imbalance by challenging our civil leaders to adopt eco friendly measures that will safeguard our survival and protect the universe from been destroyed. It is now in our best interest to take responsibility for our own actions and act in accordance with God's will for us, our family, our local community, our country, our world.

Each member who joined the Academy, originally came to one of Sean's many workshops and immediately connected with his inimitable style. We knew that here was no ordinary man who sought the adulation of the ego but who lived and spoke truth from his heart. Curiosity got the better of most who came and wanted to know more about resolving long standing hurts that were as a direct result of living within a Christian family. We all felt a sense of disillusionment and betrayal by the Priests and Ministers who instead of representing God, represented their egos and generated a fear based religion that portrayed God as some tyrant. Through working with Sean we have found the contrary and that what we were actually experiencing was religion that had lost its vision and what we were searching for was a simple spirituality that was not fear based but replaced by selfless, unconditional love and light. We have found that love in the academy where we have rediscovered a caring and loving family of like minded brothers and sisters who accept us for who we are as a child of God. Unlike many other such organisations that provide training in holistic therapies for carers and therapists, the framework of support is based on Sean's years of working as a nurse in a profession that lost sight of the humanity of the carer and when that nurse became ill, they were a statistic and discarded as irrelevant.

As a group of student therapists we all joined the academy with 'excessive baggage' that was separating us from connecting with the Divine. Our personal relationships with family and spouses were causing most of us great emotional pain and we recognised that the vast majority of us were 'rescuers' demanding radical surgery to set us free. We soon recognised that we had some serious work to do before we could be let loose on our clients. Then our hearts were guided to seek out Sean and our journey to spiritual freedom began in earnest. We were each offered sanctuary at Chapel Gap in Storth, our spiritual home, and empowered to release all negative mind-sets that had infiltrated our mind, body and spirit separating us from our divinity.

Sean's teachings were all based on a more simplified life style that was greatly influenced by St Francis and the orthodox teachings of Christ. We were empowered to acknowledge our inner core issues and release them to the Divine Mother in the presence of Christ who touched our hearts and set us free. Most, if not all of us have had to choose to leave our beloved Christian families and live in a wilderness of isolation that denied us personal growth and spiritual development. Our walk is now a spiritual pathway that is more open and receptive to clarity, simplicity and truth. The teachings that each one of us have experienced over the past several years have shown us the real importance that 'Prayer and Meditation' should play in our daily lives as light workers in service to the Christ Healing Energies. These were to become the sacred tools that would enrich our daily spiritual lives and instead of engaging with the dramas of the world, we were encouraged at every level of our training to send only love and light from our hearts.

In 1999, Sean was given a special gift from the Angelic Realms called the divine blueprint, the Angel Bagua that was to underpin the core values and teachings of all the therapists who came to work with the Christ, Magdalene and angelic energies.

At some point in our lives we have all been governed by our head that has denied us from living in the here and now as free thinkers. Our lives were fear driven that resulted in low self esteem; low self worth; lack of confidence in our ability to make a change; living in relationships that were destroying our very peace. Through the teachings of the Essenes, their daily affirmations have had a positive mind-set and reprogrammed our spiritual DNA. Now as one family we share one common bond and that bond is our commitment to spread love and light empowering many to reconnect with the Christ /Magdalene / Angelic healing energies and be set free to choose their spiritual pathway that will enrich their personal relationships with Source, the Divine Feminine and the Christ Consciousness. By demonstrating the ancient therapy of anointing the hands and feet of each other and of our clients, as demonstrated by our teacher Mary Magdalene, we are connecting souls to the Divine through a simple act of Love thy Neighbour as Thyself. Through truth, we are demonstrating the core values of Christ's love for all who 'come and rest awhile in service to the Father /Mother God. The commandment or terms of engagement with God is to love God in everything that lives, moves and has its very existence as emanating from Source.

When Sean, heard the words of Jesus to 'come follow me' it challenged him to search for his dream by entering a monastic community where he served God for 8 years of his life and another thirty eight years as a qualified nurse caring for the dying in different parts of the world.

Throughout his life, many came seeking support from Sean. Often they were casualties of having lived in a religious family whereby they felt isolated by a teaching that was more head than heart, leaving them disenfranchised from God who was 'all love.' Church history played an all important part in trying to discern the voice of God and how one could make a positive change that would challenge religious leaders representing all of the Creeds known to God to rethink their practices and practical teachings and come together as one family and praise the same true loving God. Over a period of time, many Christians and representatives from various other religions would come together say once or twice a year for a united service but nothing ever materialised in the form of one base for shared prayer. Sean had a vision that instead of each religion building more churches or temples to worship God that we re-unite and have many of one and the same place for shared prayer and divine activities.

Sean's dream was to prove to be the biggest and most difficult challenge of all by asking God to grant one simple request that God's family of believers would come together and worship the divine under the same roof thus eliminating the diverse choice of religious places of worship. Sean tried to emulate the teachings of Jesus in his personal and professional life by adhering to the Christ's call, 'that all will be on and that we should praise the Father/ Mother God with one mind, heart and soul'

Sean was aware of the many divisions within the family of God and the reluctance of religious leaders to leave their comfort zone and vacate a comfortable life. This left him painfully aware of the injustice that so called religion and their groups inflicted upon other believers who refused to adhere to their teachings. Each group looked suspiciously

at the other and instead of resolving their differences through love and light, they generated a culture that was very much fear based and loaded with religious bigotry and hate that was to create a world where man's ego pushed God into the background

Over the centuries, the early Fathers of Christianity together with the various leaders in other religious denominations have watered down and tampered with the original teachings of Christ to his followers. Man lost sight of the simple message of 'love thy neighbour as thyself' and instead of encouraging a simple belief in an all loving, forgiving Father/Mother God, we have become disenfranchised from God through a negativism that has shackled the children of God resulting in a fear based belief system that has eroded and corroded divine love and replaced it with a more head centred response. I believe that head = ego =anti love = antichrist =anti God.

Today, modern man is left with a legacy of spiritual impoverishment and confusion, resulting in chaos and daily struggles with tyrants who profess with their minds to love their God but in their hearts, they are far from Love and Light. Man's ego has played a crucial role in preventing the words of Jesus from taking root in their hearts. The world desperately needs leaders of integrity who are willing to face, head on, the evils of ego based actions and attitudes that separate man from God. Those who have stood up to tyrants have always paid the price for daring to speak out for the marginalized in society. The Essenes were hunted men because of their knowledge as was Martin Luther King and Ghandi, two of the great Men of God who feared no evil.

Our therapists and students in the academy are equally challenged to reconnect with their hearts and embrace the Barefoot Galilean. Through a process of reprogramming one's spiritual DNA, based on the teaching of the Essenes, the light worker rediscovers their 'first love' the love of Source. They are challenged to walk a different spiritual path that sets them free of ego and negative mind-sets allowing them to be not just exceptional therapists but more importantly, a people of prayer.

The work of the Sean Bradley Academy has at its roots the principle of empowering clients, therapists and carers to embrace their inner core issues and release them to the Love and Light of Christ in God. When we are asked what it is we do, we sometimes encounter rejection and fear which can be detected in the eyes of the enquirer. When the name Jesus enters conversation, society automatically perceives that we are about religion and using brainwashing tactics. Nothing could be further from the truth. We represent spirituality (God's love for us in action) not religion (perceived as been man made and infused with EGO).

We take the words of Christ that challenged Saint Frances to embrace Love and Light that was to change his destiny for ever! St. Frances used simplicity and love to spread a simple message that we are all children of the same God and that whatever we do in the name of that love, we will be protected and blessed by God. But if we step out of living and loving God we are not always guaranteed that same protection. We are invited each

day to re-visit our spiritual core values and choose the master we wish to serve. Is it our ego or is it our heart?

Our family of therapists and Associates live a simple life based on the teachings of Jesus and St Frances. These teachings have remained unaltered for centuries and many who have embraced them have found Nirvana –the God/dess within their higher self. Jesus said, ‘whatever we do in His name, we do unto God’. We are asked to come and see, be still in the beauty and silence of the moment and Just Be!

So how do we achieve this divine connection? We do it through our daily prayer, our daily activities of living and remaining in the world but not of it! We make time to feed our mind, our body and our spirit through living a life that empowers us to self heal before healing others. Prayer plays an important aspect of our service to love and light. We connect daily with each other either in a group or privately in our own work places or homes alone or with family. We set our own rule of life to serve our highest good, the good of the community and society as a whole.

We know that prayer does move mountains and many obstacles are overcome for the light worker who places prayer on their ‘daily’ to do ‘list’. To detract from prayer is like having a limb severed. Prayer is the fuel that lubricates our higher self to reconnect with the Divine within and around us each day.

Our success is only as good as the members who remain active, alive and well in our groups. Each one of the members are invited to take back their personal power and encouraged to use it effectively to rebalance the imbalances in our society through sharing and releasing love and light not judgement. Many are invited by Jesus and Mary Magdalene to come and join us as therapists but when they have realized what is involved in acknowledging their inner core issues and personal involvement, they decide to abandon self healing and leave. It takes guts to stand and face one’s ‘shadows’ each day, every day but through embracing a family of like minded light workers and supporting each other from a heart infused with divine love, the members are enriched to share their love with each other and provide a mechanism that is practical as well as deeply spiritual.

Our Aims and Core Values as a Family of Light Workers

To fully understand and comprehend the Aims of Tau, we need to reflect on who is the ‘Wounded Healer’? Many people who have become therapists do so because they genuinely want to help others. Many come to train as therapists of the Academy because they have worked through healing themselves and feel they are in a position to help others. However, when we begin to help others, the healing of others naturally brings up unfinished business within ourselves. Unless we are fully aware of this, we can end up projecting our problems onto the already traumatized client /patient, sometimes in a very subtle way.

What has this to do with healers? Well, I believe that any agendas which lay unanswered within a person may surface when treating a patient/client. I would say that all healers first and foremost duty is to their clients /patients, and to act with the utmost humility, compassion and ethics, understanding that their skills do not come from themselves, but from God. Then they have a duty to themselves to keep body and mind as pure as possible through right nutrition, right thoughts and right actions.

Maybe it seems a tall order, but when many lives are at stake, it is a necessary order. The world needs powerful healers who are in control of themselves and know who they are. Are YOU working from a safe place right now? If not, then maybe we can help each other to grow...

We achieve our aims by listening to the voice of Jesus, ‘ Love one another as I have loved You.’ We do this by:

- » **Sharing** His love and light when we meet as one caring family of soul seekers in a community, The Academy made up of brothers and sisters who share one common goal. That goal is divine love rooted in the orthodox teachings of Jesus, the Nazarene Essene, underpinned by the ancient teachings of St Francis and the Angel Healing Bagua.
- » **Empowering** each other to feel safe and loved as one family who care for the whole person.
- » **Respecting** confidentiality as sacrosanct.
- » **Encouraging** each other to speak one’s truth from a place of love.
- » To **observe** negative voices that may colour one’s judgement of a fellow therapist thus losing out on their skills and gifts for the whole family. We are to eradicate discontent at grass roots level.
- » **Embracing** the Christ / Magdalene energies within each other through mutual respect and managing diversity with love not hate.
- » **Supporting** a fellow member /therapist who may have lost sight of boundaries in their relationships with each other and /or with their clients.

Our Vision for the TAU Community

There are different types of membership depending on the availability and commitment of each new member to the Tau Community.

As a small band of caring therapists and light workers we are confident that OUR SHARED VISION will be achieved through our daily prayer and manifestations. They are:

1. Obtain Charitable Status for the community within the next 2 years.
2. Locate a suitable property here in the south Lakes in a tranquil, rural location that will support a small community of brothers and sisters to live out the Gospel of Love, Light and Peace supported by the members to run retreats, provide support for therapists and carers in need of counselling, support, respite, healing courses and therapies.
3. Centralise our courses and healing workshops at the Tau Centre.
- 4 Foster relations with eco friendly groups and promote recycling in the local community.
5. Establish Tau communities across the world.

Additional information to support our article for Press releases

Message to all Light Workers for 2006

I am Kuthumi and I come forward upon the rays of love and wisdom to greet each of you upon this day, to bring to you the blessings of tranquillity, of upliftment, vitality and good health. Greetings, beloved ones.

And it is with great joy and pleasure in our hearts that we may gather with each of you upon this day as we hold you firmly within the heart of Christ and securely upon the hands of God.

Beloved ones, today is a great day of celebration. It is the Universal Solstice. It is a time where all of the Lords and Ladies of the Light, the Ascended Masters, the Angels, the Archangels, the gods and the goddesses of your world, your solar system, the galaxy and universe come together and gather around bringing some of the most powerful vibrations of light to your planet. These vibrations are set in place to hold the planet for the year to come. The universal solstice always runs from 12 December to the 12 December and the new rings of light are created every year on the twelfth day of December. These rings of light emit vibrations that serve to implement the plan of light for the planet set in place by the Sirian Council of Light and the Great White Brotherhood. Many of the members of the Sirian Council of Light are in fact members of the Great White Brotherhood, and over the next few years all of you will come to experience closer relationships with these magnificent beings of the Great White Brotherhood. On the twelfth day of December of every year we bring you a breakdown of what you can expect in the year to come, and I assure you 2006 will be a very eventful year. I promise you, you won't be bored! (laughter) Every year brings new opportunities. There are always new opportunities presenting themselves for the lightworkers, as well as every other human on the planet, and these possibilities are there to take each soul deeper within themselves and into the realms of consciousness and awareness that serve to bring about the deeper understanding of self.

2006 is the year where Christ consciousness and fluid love create the new template for the next 25 years of your planet's cycle of spiritual awakening. It is a year of immense change. All of you will have to get used to change. Things changing in a heartbeat; just when you thought your plans were set in stone, it will turn about. It is a very important lesson for humans because you are very set in your ways, and very stubborn. This does not cause us frustration, but it does for you. You find yourselves in situations where you feel you are banging your head against the same old wall just because change has become the enemy. It will be the little changes initially that will be the ones that catapult you into the rivers of life where all one can do to survive is surrender, and in the surrender one realizes that one never had to fight to survive, all one had to do was surrender in order to thrive. We hope you will figure that one out in 2006! (laughter)

Flexibility, transition, transformation, inspiration, exploration and venturing into the inner world of your archetypes will keep you on your toes. All the aspects of yourself that express themselves in the form of archetypes will teach you vital lessons about yourself. It is important to bear in mind that when I refer to these lessons that not all of them will be of a harsh or very challenging nature. It is also important to experience one's lessons through laughter, through joy and humour, for when you can laugh at yourself you have learned some of your greatest lessons. Staying angry with the self is very easy, you do it quite unconsciously!

So now it is time to become a professional at laughing at yourself. 2006 is about discovering the jester within, and the archetype of the court jester will have lots of fun with you next year if you choose to dig in your heels and express the stubborn pattern of denying change or refusing change. Don't say I didn't warn you.

We have often said that humanity finds the simplest of tasks the most difficult to do. With next year's opportunity to experience change, flexibility and surrender, you will realize what we have spoken of and how easy it is, in fact, to move beyond the old ways. The chakra that comes under focus next year 2006 is the third eye chakra. You will be faced with recognizing your patterns next year, both constructive and destructive. It will be a very important time of healing all your psychic bodies, and developing systems of spiritual communication with the worlds of light and strengthening your telepathic communications and spiritual vision on a much deeper and grander scale.

You have been introduced to the energy of the sixth dimension of fluid love. You will come to see how this magnificent energy seeps into every nook and cranny of your mind, your body, your soul and your being, your conscious, your subconscious, your unconscious and your superconscious. You will see the gifts it brings, for you are all being introduced to the greatest love of all, the love of Mother/Father God for the creation called life, in all its forms. You will taste some of the new delectable dishes called love, ones you have as yet not tasted, and the old ways of experiencing what was perceived as love will fall by the wayside. Your world as a whole will come to stand before the self and have to embrace the parts of self that embody love and release the aspects of self that hold onto conditional love. It is a year where lust consciousness and conditional love consciousness experience its greatest challenge of trying to hold onto a world of illusion that no longer has a foundation. This is another reason why it will be vital to allow yourself to be flexible and to go with the flow.

In the space of surrender you will find how easy it is to grow with the flow that spirit automatically brings you, that you as a soul have set in place for yourself. Understanding the patterns that serve you or sabotage you is vital in the system of constructing a world based on your authenticity rather than based on the belief systems of a society that is already living within an illusionary system that continues to feed illusionary constructs. Belief systems will be challenged like never before over the next 5 years. In 2006 you will witness how the belief systems of the various & many religions come under scrutiny - people asking questions of their elders that cannot be answered; searching for explanations that do not come through the old route and comfortable zone. All the comfort zones will fall away; however people will realize within a very short space of time that in fact the perceived comfort zone was in fact their hell; a comfort zone held in place by fear and complacency, and complacency is generally held in place by fear anyway.

The crystal children will forge a new bond, strengthening the energy and the power of fifth, seventh and sixth dimensions. We do not put them in the order for fifth and seventh are a pair working together, as are sixth and eight. Do you all understand this? Acknowledgement.

All of you will be given the opportunity to choose what you wish to invest your energy in. I have already briefly mentioned that you will create abundantly next year (2006), and you can choose what quality of energy you will manifest in abundance. Will it be fear based illusionary experiences, or will it be experiences motivated by love and the authentic aspects of self? There will be great discoveries next year regarding the self. More and more will be revealed regarding the importance of bringing greater understanding to humanity regarding spirit and science working together as one.

Many of the Native American Indian teachings will play a great role in the spiritual revolutions beginning to stir in many of the major countries around your world. The Great Masters of the

Red People predicted many things changing upon the planet, and most of them have come true already. They were the ones who predicted the time would come when all the food would be poisoned, the earth would be poisoned and man would have to rediscover his roots with the earth in order to survive. That, beloved ones, is already part of your reality. The movement to more sustainable living, the utilization of organic and environmental friendly substances will be highlighted next year as well, and you can look forward to some very supportive changes for Mother Earth taking place.

More voices need to be heard, beloved ones, and you will be placed in positions where your voice must be heard. In the past lightworkers have stood very quietly in the background while those of the old paradigm stood upon the podium lecturing and stating their fear-based opinions. No such thing next year. It is time to voice the truth. As you stand with the power of your third eye chakra, stirring within a spiral of new light, you will find a whole new dimension to yourself. Your sacral chakra and all the sacral chakric points on the planet will begin to stir and awaken, therefore you can look forward to the goddess energy of the feminine principle rooting itself even deeper.

The cause for celebration is that this rooting process will take place in many men's lives. Men will be able to embrace the new understanding that being feminine, or in touch with the feminine self, has absolutely nothing to do with homosexuality or weakness, and everything to do with tapping into the creative power in order to enhance their masculine ability to provide and manifest.

Beloved ones, the gifts you have been brought today (what you have chosen for 2006) are yours to anchor and utilize in which ever way you choose, for they will influence the abundant energy you will tap into next year. The eighth dimension is the dimension of the Christ consciousness. I've mentioned already the archetype. It is also the symbol of infinity; therefore you have the opportunity to create whatever your soul desires on such a level that it supports you or influences you for infinity. You will be taught how to create an energy that has a continuous flow, a flow that touches you consistently. Another reason why you must be very clear, in your mind and in your heart, what you will focus your energy on.

You have been groomed for this time. Your initiations have prepared you for 2006, and this energy. Christ will come to stand before you, in the form of your reflection. You will experience the blessings of the Christed consciousness, you will be guided through the Christ light and the fluid love of the sixth dimension is what will embrace you, heal you and nurture you when required. The world will have to surrender to the Christ consciousness. All the evils of the world will come and face Christ and this light will shine down upon all the darkness of the world. The world will not be reversed in its ways within the next 12 months; however I can assure you that great leaps and bounds of achievement of the light will take place during the year to come.

Leading up to 2009 you will witness some of the greatest changes in your history, ones that will be written in the books of spiritual history, as well as economic history, and social history, that your grandchildren and great-grandchildren will learn about.

You are all very blessed to witness the greatest changes to take place on any planet where you see the battle between light and dark changing, and where light begins taking the upper hand whereas for thousands of years darkness has been the motivating force. People will have the

switch necessary to acknowledge what the light means. Many people will come to accept that Lightworkers, Christians, Moslems, Buddhists, Catholics , whoever it is, is of the light because you are working to bringing about the same energy. Your mission is one and the same, you only walk under a different banner, but all of that will change too and many Christians, Moslems, Hindus, Catholics, Buddhists, to name but a few, will merge with the Lightworkers, for they too are Lightworkers in their own divine way.

Forging the greater community and family of light is vital. Lord Jesus and Mary Magdalene will ensure this takes place. Their energy will be amplified next year , a lot of healing will take place on the planet, especially the areas connected to where Jesus and Mary Magdalene once walked. Their energy extends to Europe and there too, will be great healing taking place regarding the acceptance of Mary Magdalene`s true role and more people will come to accept her rightful place alongside Lord Jesus as his twin flame. As this occurs you will feel the power of the goddess energy becoming stronger and stronger. Never will it consume the masculine energy, for the order of this century is that masculine and feminine stand alongside one another. The theme is to create balance, where masculine and feminine work together, co-operating within the systems of light to create balance.

The forums of consciousness that have been created by the Great White Brotherhood, by the Sirian Council of Light, by the Sirian Archangelic League of the Light, the Pleiadians, the Arcturians, the Andromedians, and the Venutians have all come with a specific purpose, and that is to see Mother Earth make her ascension, and it shall be done, with or without you. People are realizing this, and many are seeing that Mother Nature is no longer putting her life on hold, so to speak, so humanity can catch up. She is now revealing her power, she is showing what she is made of, and humanity is having to change, like it or not.

The systems of light are rapidly outweighing the systems of darkness; therefore celebrate this fact, beloved ones, and continue your amazing work, continue following the plan of light. We are aware of how sad many of you are at times when you feel overwhelmed and think that the darkness of the world will never, ever be diluted, that it will not be, overcome, transmuted , but it will, in a shorter time than you think. Trust, trust and trust some more. Is this clear?

Monday 12th June 2006

Dear Sean, By all means forward the channelling to the therapists for it was given for every one. I am being told that there will be more to come in the future months, that there is much pleasure in uplifting the therapists and connecting with the source. it is part of the divine plan.

Script

Sean sends his love to you. *‘I am aware of his love, he shows it in everything he does, Sean has an amazing capacity for love, he touches so many souls.’*

Q In the name of our group of therapist and students are we to expect your blessing on the new residential healing centre in Cumbria?

Answer: ‘Absolutely’.

Q When will happen

Answer: *'The project will move forward by autumn 2007, every thing is perfect and as it should be. Part of the money to allow this to happen will come from an unusual source, Just trust and know it will happen.'*

Message to Sean from Jesus

I celebrate the work you are undertaking Sean, for it is not an easy task but you achieve it with strength and determination, but do not forget that you also need time to maintain your reserves of energy. I do not want you to wear yourself out. Get pleasure from your life, as man is not sustained by work alone but through the balance of all. Renew your cells by drinking more water. Nature is also important to you as it helps you to stay centred and in touch with your inner core. You are a gentle soul and my love for you is great. Jesus

Love and light
Lesley

**Channelled reading 11th June 2006 6.50am -Lesley, Student
TCCP (May '06)**

Believe in me my children of God and allow the wondrous energy to enfold you, to bring peace into your heart, to your mind and body. Allow this energy to move through you and in doing so feel all parts of you, as you undertake this important work as light workers. To work so completely at healing those around. As you work to transmute the darkness into light, you who have the power to manifest wondrous light energies with such perfection and courage. I celebrate this achievement for each of you in turn, as you are your own student and teacher.

You gain so much as you walk through life. I want you to acknowledge what you have achieved so far, with such amazing clarity and depth, much more than you will ever know. As you keep your thoughts to the light you radiate positive energy out to the world, touching all souls living on the earth at this time. I also ask you to remember to send light to those who are lost and in just thinking this will enable it to happen, So that they are guided to the light.

We have a huge task of that I have no doubt, but this is not something that cannot be achieved, as it can be achieved totally. With each day you move further towards enlightenment and you will know that this vibration surround you and those you care for who are also light workers are noticing a huge shift. Therefore it is important to keep your mind clear and positive and should a negative thought creep in, give it no energy and it will evaporate as it has no power within your light. Your light is so strong that the negative is like a speck of dust in the distance. The more you shine your light and

demonstrate honesty integrity and truthfulness about whom you are, a child of God, the more your light energy increases the more you will attract others who resonate with the same vibrational energy as yourself. Until the time comes that you develop a huge collective and this is happening all around the world. In some countries around the world, the numbers are huge with many souls being gathered together shining their beacon of light, truth and wisdom and in other areas these pockets are small. However they still have the power to heal and are growing by the day.

It is important for you to say a daily prayer. Oh wondrous light divine and infinite being, we link with you at this time and send healing prayers to those around the world who are in pain. Let their pain diminish and let them feel your love within their hearts, wisdom within their souls and know they are a perfect child of God. A prayer said in the knowledge that faith can move mountains. It has the power to make such wonderful changes, to keep you safe, to help you complete your life's journey and the tasks you have agreed to complete. May the light of your soul and the love for your fellow man increase.

May your love of God grow, as we are all children of God. Prayer lightens the spirit, brings peace to the mind and renews the cells within your body as your light and vibrational energy increases, clarifying the mind so that thoughts do not dwell on the past but remain steadfast in the present. As the present is where you are. The past has gone and the future has not yet arrived. But the present is here and now. To stay in the present is to be grounded firmly. Being at peace, peace with who you are. Do not wish to be someone else, do not envy the things that others have, do not get angry within. But instead celebrate the uniqueness of who you are. You chose your life and you chose wisely.

Because you have much to learn but also much to teach. Within every teacher there is a student and within every student there is a teacher. Allow other light workers to teach you as you will teach them. To teach with honesty, integrity and truth. To speak my name, I love you and I bow down to the reverence of who you are. I am humbled that you have taken up the task with such courage and determination. I sit at my fathers hand and I feel such love; such depth and I celebrate the work you are doing. I am always here for you in your moments of trouble, distress or celebration. You are never lost for I am always with you. I walk every step of the way with you and I am proud to do so. Take heart and know I love you greatly and my love is strong.

A Personal Message from Christ to You

“Be Still and know that I am God. ‘Just Be’ and know that I am with you. No pressure, no hurry, no hassle. Take things one day at a time. Walk with me in the serenity of my path, have courage and faith

but most of all 'Just Trust'. I am with you always walking beside you or carrying you through tough times. Things have been difficult but things will get better, good things are ahead. She has gone before – her role here was finished but your role has only just begun. This is the right path for you and you should work with your fellow lightworkers, 'the therapists of the Sean Bradley Academy' to radiate love and light nationally and internationally. You all share a common goal spreading the truth of my word and distributing love, light and healing. This is not new for you. It is inherent. Therapeutic touch/channelling has been around for centuries if only you will just 'trust'. Everything will fall into place and you will all know exactly what to do. Nurture those crystal and indigo children – you know who they are. They need you and they need your support. You are there to guide and teach them. Be passionate and enthusiastic. Warmth and positivity glows from each one of you like a beacon to touch people's lives, often in many unexpected ways.

Unconditional love is the key. Walk beside me and I will carry you through. Know that I am God, I will raise you up and Christ Consciousness will be awakened at a global level through the ripple effect. Have confidence in yourself, forgive yourself for your mistakes, love yourself as much as you love others – without self-love you have nothing. Open your heart and divine love will be channelled through you. You will shine and you will be guided by Jesus and Mary. Every one of you has an important role to play in this giant jigsaw. Each small step along the path is another part completed. If in doubt ask the beautiful Angels of the Bagua and they will give you the strength and courage to succeed.

Archangel Michael will protect you. Let him 'cut the chords' of negativity and release them. Uriel's yellow/gold light will raise your consciousness even further. Raphael heals the healer. Remember to make time for yourself. Set aside some quiet time for prayer. It is during this that Gabriel will bring you messages. Metatron, at the helm, will nurture you, enveloping you in all his wings. Oh what powerful energy he beholds – Love and Light from every angle!

THE WOUNDED HEALER

BOUNDARIES IN THE CLIENT / THERAPIST RELATIONSHIP

Who is the 'Wounded Healer'? Many people have become therapists do so, because they genuinely want to help others; many come to train as therapists of the Academy because they have worked through healing themselves and feel they are in a position to help others. However, when we begin to help others, the healing of others naturally brings up unfinished business within ourselves. Unless we are fully aware of this, we can end up projecting our problems onto the already traumatized client /patient, sometimes in a very subtle way.

An example that comes to mind is when I had a bout of renal colic in the mid seventies and the nurse in charge of the A&E department was domineering and seemingly angry with life. When she gave me the pethidine injection to alleviate my pain I sensed that she was projecting her negativity via the injection and my situation became intolerable. I discovered that she was having severe marital and sexual problems as she had many agendas which were projected to patients who had reason to meet up with her for emergency treatment.

As a senior nurse in charge of an A&E department, I later came to work with staff from various A&E departments, helping them address painful issues within themselves, which hindered a good patient / nurse relationship.

What has this to do with healers? Well, I believe that any agendas lying unanswered within a person may surface when treating a patient/client. I would say that all healers first and foremost duty is to their clients /patients, and to act with the utmost humility, compassion and ethics, understanding that their skills do not come from themselves, but from God. Then they have a duty to themselves to keep body and mind as pure as possible through right nutrition, right thoughts and right actions.

Maybe it seems a tall order, but when many lives are at stake, it is a necessary order. The world needs powerful healers who are in control of themselves and know who they are.

I pray that our therapists and all healers and therapists everywhere may find that power and be the best they can be for those who souls who need their help.

Yours in Divine Love and Light

Sean Bradley
Principal & Founder of the Academy

Channelled message for Sean's TCCP group 28/5/06:

25

Beloved Family of Light,

Know that your spirit is strong, wise & all knowing, when you connect with us in the spiritual realm, your Brothers & Sisters of Light. We have always loved you & will always love you, for YOU are one of us. It is only when you forget this fact that you become separated & disconnected. It only takes a minute of silent prayer to re-connect. And this minute of prayer is your responsibility – do it at any time of the day, when the outside world overcomes the peace within. Remember we stand forever by your sides, our beloved Sisters & Brothers of the Light.

Forever yours, Christ, Your Brother, speaking for those who stand in the Light.

13th April. 2006

I have a message for you, Sean, and in this you must trust that I am Gabriel. You are about to receive the word of God, you will feel the presence, the energy, the love and you will not doubt. This will cause you some turmoil initially, for you will find that aspects of yourself are challenged, you may even feel physically unwell but you will see the truth, the joy, if you accept the divine healing from within yourself and those around you, for they have gathered to offer their love and support. You will be given directions for building a temple, not with bricks and mortar, but a spiritual temple. This will be difficult for it will attract those that need it most and they will bring many traumas with them. Your work will take you in a different direction from that already started, which has mainly been preparatory so far. There are enough people now, to continue what you have begun.

I offer you love, gratitude and ask that you believe in yourself and those that have come to support you. Carole Poland
